What Materials Are Available?

Genuine Leather Classic

The original Sash in a classic, simple design available in colours that appeal to everyone makes this the most popular style. Every Sash has RFID protected wallet slots on both sides, along with stackable pockets - with a total of 10 pockets overall - allows for optimal organization and easy access. Produced in soft luxury leather with a smooth polished finish.

Genuine Leather Full Fringe

A distinctive & fun style that is a customer favourite. Made from Sash's famous supple leather and sewn with the edges of the leather revealed, with what we call a "raw finish". Our fringe bags are embellished with full swath of full fringe that hangs just past the bottom edge of the bag.

Faux Leather

Sash Bags are also available in Faux Leather in the classic Sash style. They are made of a durable faux leather that wears well and looks like real leather. The lower price point and ease-of-wear make this a great introductory bag. Faux color options include versatile neutrals and occasional specialty fabrications and colors.

Denim Cloth

Sash in a denim cloth is versatile and in high demand. All Denim Sash Bags have the same classic styling as our leather and faux leather bags, but with the casual appeal of denim. They are made of a sturdy denim fabric in black, charcoal, blue, and electric red.
